

## Department of Child Health Nursing

### JOURNAL CLUB PRESENTATION (JCP):

Child Health Nursing Department, organised a journal club meeting on 16.10.2019 and presented a journal article on “Dyke-Davidoff Masson Syndrome “. It is a rare neurological disorder characterized by cerebral hemiatrophy, ventricular dilatation, seizures, behavioural changes and learning disabilities. Growth and development issues are common in the child and the parent needs appropriate education in managing the child at home.
